

February Events Oversight Report

Events Oversight Committee will oversee events in the community with a focus on coordination and communication. The committee will not be responsible to host the events themselves. The Events Oversight coordinator will handle all vendor and property information for the events. The coordinator will work to streamline and plan to make sure everything is completed per Raintree requirements. If you would like to volunteer or host an event using Raintree Common Ground, contact events@raintreepoa.net.

If you are posting an event or gathering on social media, you need to contact the events oversight committee!
