

## Security / Technology Report

06/13/2024

Submitted by Glenn Witt

- 
- Updated gate loops have been effective. In one week since the loops were adjusted, only one 'gate down' incident at front/rear gates.
  - Tech committee has (3) Logitech-Mevo cameras and testing for higher quality meeting recordings and live streaming.
  - Tech committee is recommending a 75" TV for casting meeting information
  - Security committee is reviewing options for simplifying visitor gate entrance. The multiple key pads continues to be confusing for visitors.
  - REMINDER – Please be respectful when the gate is being repaired and do not initiate a gate opening, it can be dangerous for the person repairing the gate.
